

Custom configuration

Few configurations like Enabling "WHMCS Module Log" for Liquidweb api calls (2) and if you are using any custom WHMCS theme then you need to select the "Custom theme" option.

The screenshot shows the WHMCS administrative interface. At the top, there's a blue header bar with the WHMCS logo and navigation links for Clients, Orders, Billing, Support, Reports, Utilities, Addons, Setup, and Help. Above the main content area, there are status indicators: 106 Pending Orders, 78 Overdue Invoices, and 0 Ticket(s) Awaiting Reply. On the left side, there's a sidebar with several sections: 'Liquid Web Storm servers' (Product Setup Wizard, Storm Servers Billing Configuration, Version: 1.2.0), 'Addons' (Liquid Web Storm Servers Billing, Panel Extended Center, PDO Addon Example, Weebly Cloud), 'Advanced Search' (Clients dropdown, Client Name search input, Search button), and 'Staff Online' (min). The main content area has a title 'Liquid Web Custom Configuration'. It contains two sections: 'Configuration' (with a sub-section 'Custom theme' where a checkbox is checked for 'I am using custom template, which is derived from WHMCS template "SIX"') and 'Module Log' (with checkboxes for 'Log LiquidWeb api error to "System Module Debug Log"' and 'Log all LiquidWeb api calls to "System Module Debug Log"'). A green 'Save Changes' button is at the bottom of the configuration section. The Liquidweb logo is visible in the top right corner of the main content area.

Product Setup Wizard

"Product setup wizard" allows you to configure the Liquidweb products into your WHMCS without going through the process of creating products manually.

Select products

To access the wizard, click on "Goto Liquidweb Product Setup Wizard" from home page.

The screenshot shows the WHMCS Admin Summary page. At the top, it says "Welcome Back Whmcs6-admin GT!" and displays "Attention Items: 0 Ticket(s) Awaiting Reply - 0 Pending Canc...". Below this is a widget titled "Liquid Web Storm Servers" which lists server configurations:

Product Name	Config ID	Available Zone
LWVPS - san05171661.org	0	Out of stock
LWVPS -	0	Out of stock

Below the widget, there is a summary for a server named "santest555.teststage1.com":

santest555.teststage1.com	16008 MB RAM	220 GB Disk
Used	5065 MB - 31.64%	51 GB - 23.18%

A red arrow points from the "Goto Liquidweb Product Setup Wizard" button at the bottom right of the widget area to the "Goto Liquidweb Product Setup Wizard" link in the main content below.

(Note: if you don't find the "Liquid Web Storm Servers" widget in your admin home page then follow these steps to enable it)

Goto Setup->Staff Management->Administrator Rolls

The screenshot shows the WHMCS Admin interface. The top navigation bar includes links for Pending Orders, Overdue Invoices, Tickets, and a "Goto Liquidweb Product Setup Wizard" button. The main menu has tabs for Clients, Orders, Billing, Support, Reports, Utilities, Addons, Setup, and Help. The "Setup" tab is selected. A sidebar on the right contains various settings sections, with "Administrator Users" highlighted. The main content area shows a table for viewing clients, with columns for First Name, Last Name, Company Name, and Email Address.

Click on Edit button on the right hand side of each Role Group

The screenshot shows the 'Administrator Roles' section of the WHMCS admin interface. It lists five role groups: DEMO, Full Administrator, Sales Operator, and Support Operator. The DEMO group is assigned to 'liquidweb'. Each role group has an 'Edit' button (pencil icon) and a 'Delete' button (trash icon) to its right.

Group Name	Assigned Admin Users	Edit	Delete
DEMO	liquidweb		
Full Administrator	admin		
Sales Operator	None		
Support Operator	None		

Enable the "Liquid Web Storm Servers" Widget.

The screenshot shows the 'Widgets' configuration page. Under the 'Available Widgets' section, the 'Liquid Web Storm Servers' checkbox is selected and highlighted with a red box. Other available widgets include Activity Log, Calendar, Getting Started with WHMCS, Income Forecast, Income Overview, My Notes, My Tasks, My Tickets, My Worklog, Net, Open Tickets, Orders, Recurring Billing, Recent Tickets, and Support Tickets.

You can also select "Product Setup Wizard" menu (2) from left panel under "Liquid Web Storm Servers" (1) addon page.
Select the product/s (3) you would like to configure and click Next (4).

The screenshot shows the 'Liquid Web Product Setup' page. Step 1 highlights the 'Liquid Web Storm Servers' addon in the sidebar. Step 2 highlights the 'Product Setup Wizard' link in the sidebar. Step 3 highlights the 'LiquidWeb SSD VPS' and 'LiquidWeb Private Cloud' configuration options. Step 4 highlights the 'Next >' button at the bottom right.

Liquidweb account authentication

Next page prompts you to enter your "Liquidweb account" credentials. Once a valid account credentials provided, module will create a new api username and password to access the Liquidweb apis.

This step will appear only on initial product setup. Next time onwards wizard skips below 2 steps.

The screenshot shows the WHMCS interface with the "Liquid Web Product Setup" module active. The left sidebar contains links for "Liquid Web Storm Servers", "Addons", "Advanced Search", and "Staff Online". The main content area displays the "Liquid Web Product Setup" page with the title "Liquidweb account authentication". It includes a note: "Please provide your Liquidweb account username and password to continue". Two red arrows point to the "Username:" field and the "Create new API account >" button. The top navigation bar shows "105 Pending Orders | 78 Overdue Invoices | 0 Ticket(s) Awaiting Reply" and the date "Wednesday, 18 May 2016, 18:22". The WHMCS logo is at the top left, and the Liquidweb logo is at the top right.

New API credentials

New api username and password will be generated and saved internally. If you need this in future, please note down somewhere because you cannot retrieve back these credentials in future. Click on "Continue" to goto product configuration page.

Liquid Web VPS buy flow

Once the products are setup, customer can place the order for these products. Customer needs to open your WHMCS page and register themselves for placing an order.

1. Select LiquidWeb VPS (2) product under 'Liquidweb Products group' (1) from the cart

The screenshot shows the WHMCS dashboard with a sidebar on the left containing a 'Categories' section and an 'Actions' section. The 'Categories' section includes links for Hosting Plans, Select Weebly Products, Plesk, GT Products, Resellers, Liquid Web & Storm On Demand, and Liquid Web Products. The 'Liquid Web Products' link is highlighted with a teal background and has a red arrow pointing to it from the top-left. The 'Actions' section includes links for Domain Renewals, Register a New Domain, Transfer in a Domain, and View Cart. The main content area features a heading 'Hosting Plans To Suit Your Every Need' and two hosting plan cards. The first card, 'LiquidWeb Private Parent', is purple and white, featuring a hexagonal icon and a large 'FREE!' button. The second card, 'LiquidWeb VPS', is purple and white, featuring a hexagonal icon and a price of 'Only \$805.00/mo'. Both cards have a 'Order Now' button at the bottom. A red arrow points from the 'Liquid Web Products' link in the sidebar to the 'LiquidWeb Private Parent' card. Another red arrow points from the sidebar to the 'LiquidWeb VPS' card.

Thursday, 02 June 2016, 19:44

The screenshot shows the WHMCS Client Area interface. At the top, there's a header bar with the WHMCS logo and navigation links: Clients, Orders, Billing, Support, Reports, Utilities, Addons, Setup, and Help. Below the header, a banner displays '107 Pending Orders | 78 Overdue Invoices | 0 Ticket(s) Awaiting Reply'. On the left, a sidebar contains sections for Orders (List All Orders, Pending, Active, Fraud, Cancelled, Add New Order), Advanced Search (Clients, Client Name, Search), and Staff Online (admin). The main content area is titled 'Manage Orders' and shows detailed information for a specific order: Date (02/06/2016 19:14), Order # (2104133108), Client (san s dfadf, adfadf, sdfasdfaf, Georgia, 2423423, United States), Payment Method (Bank Transfer), Amount (\$805.00 USD), Invoice # (292), Status (Pending), IP Address (192.168.3.14), and Affiliate (None - Manual Assign). Below this, the 'Order Items' section lists a single item: Product/Service (Liquid Web Products - LiquidWeb VPS), Description (Liquid Web Products - LiquidWeb VPS), Billing Cycle (Monthly), Amount (\$805.00 USD), Status (Pending), and Payment Status (Complete). It also includes fields for Username (wfyrovot), Password (x33Y4caAb5), Server (None), and checkboxes for 'Run Module Create' (checked) and 'Send Welcome Email'. At the bottom of the order items section, there are buttons for Accept Order (green), Cancel Order, Cancel & Refund, Set as Fraud, Set Back to Pending, and Delete Order. The 'Accept Order' button is highlighted with a green box and a red arrow labeled '2.'. The 'Run Module Create' checkbox is highlighted with a red box and a red arrow labeled '1.'.

7. Check your Liquidweb account, new server gets added (1) under 'STORM SERVERS' section. If it is still in provisioning status then it will display status as 'Create Server' (2). You can also check the Notification area for server creation messages (3).

The screenshot shows the Liquidweb Overview page. On the left, there's a sidebar with links for Overview, Server Images, Networking, Domains, History, Account, and Support. Below that is a Notifications section with a 'Current Status' header and a list of recent events.

The main content area has two tables:

- STORM SERVERS**: Shows a single server entry:

SERVER NAME	IMAGE NAME	PRIMARY IP	TYPE	ZONE	STORAGE	STATUS
host2.myvps22.net	Ubuntu 14.04 LTS...	67.225.160.2...	64GB - S...	US Central - ...		Creating
- STORM PRIVATE CLOUD**: Shows one server entry:

SERVER NAME	TYPE	ZONE	STATUS
myhost.teststage1.com	'Intel(R) Xeon(R) CPU E5-1650 v3 @ 3.50GHz'	US Central - Zone C	Running

Red arrows numbered 1, 2, and 3 point to specific elements:

- An arrow points to the 'host2.myvps22.net' entry in the 'STORM SERVERS' table.
- An arrow points to the 'Running' status in the 'STORM PRIVATE CLOUD' table.
- An arrow points to the 'Create Server' message in the 'Notifications' sidebar.

8. Once the server is provisioned, customer can see his products (2) under 'Services->My Services' menu (1). Click on the products to view the product details and manage.

The screenshot shows the WHMCS Client Area interface. At the top, there's a navigation bar with links for Home, Services, Domains, Billing, Support, and Open Ticket. On the far right, it says "Hello, san!" with a dropdown arrow. Above the main content area, there are three small status indicators: View Cart (0), Notifications (0), and Choose language (dropdown arrow). The main content area has a title "My Products & Services". Below the title is a breadcrumb trail: Portal Home / Client Area / My Products & Services. The main table displays one entry: "LiquidWeb VPS" with a price of "\$805.00 USD Monthly" and a status of "Active". The table has columns for Product/Service, Pricing, Next Due Date, and Status. Below the table, there are buttons for "Previous" (disabled), "1" (selected), and "Next". To the left of the main content, there's a sidebar with sections for "View" (Active: 1, Pending: 0, Suspended: 0, Terminated: 0, Cancelled: 0) and "Actions" (Place a New Order, View Available Addons). A red arrow labeled "1." points from the "Services" link in the top bar to the "Services" link in the sidebar. A red arrow labeled "2." points from the "Place a New Order" button in the sidebar to the "Place a New Order" link in the main content area.

9. Customer can view product details and a list of options to manage the server.

The screenshot shows the WHMCS client area interface. At the top, there's a navigation bar with links for Home, Services, Domains, Billing, Support, Open Ticket, and a greeting "Hello, san!". On the right side of the header, there are links for View Cart (0), Notifications (0), and Choose language. The main content area has a title "Manage Product" and a breadcrumb trail: Portal Home / Client Area / My Products & Services / Product Details. On the left, a sidebar titled "Information" contains a "Actions" section with options like Reboot, Shutdown, Start, Restore, History, Block Storage, IP Management, Firewall, Backups, and Request Cancellation. A red arrow labeled "1." points from the "Shutdown" option in this list towards the "Manage" tab in the main content area. The main content area features a central box for "LiquidWeb VPS" under "Liquid Web Products", showing a status icon and the word "ACTIVE". To the right of this box are several product details: Registration Date (02/06/2016), Recurring Amount (\$805.00 USD), Billing Cycle (Monthly), Next Due Date (02/07/2016), and Payment Method (Bank Transfer). Below these details is a large red button labeled "Request Cancellation". Underneath the central box are two tabs: "Manage" (selected) and "Additional Information". The "Manage" tab contains buttons for Start, Shutdown, Reboot, Restore, History, Firewall, IP Management, Backups, and Block Storage. The "Additional Information" tab displays server details: Server (host.myvps22.net), IP (67.227.152.70), and Template (Ubuntu 14.04 LTS 64-bit Core-managed). A red arrow labeled "2." points from the "Manage" tab towards the "Reboot" button in the list of management options.

10. Several options available to manage the server.

- Reboot the server

The screenshot shows the WHMCS interface. At the top, there's a navigation bar with links for Home, Services, Domains, Billing, Support, Open Ticket, and a greeting 'Hello, san!'. On the left, a sidebar titled 'Actions' has items like Reboot, Shutdown, Start, Restore, History, Block Storage, IP Management, Firewall, Backups, and Request Cancellation. The main content area is titled 'Manage Product' and shows a confirmation message: 'Are you sure you want to reboot this machine?'. Below it are two buttons: a green 'Yes, reboot my machine' and a red 'No'.

- Shutdown the server

This screenshot is similar to the previous one but shows a different action. The 'Actions' sidebar has 'Shutdown' selected instead of 'Reboot'. The main content area displays the message 'Are you sure you want to shutdown this machine?' with the same green 'Yes, shutdown my machine' and red 'No' buttons.

c. Start the server

The screenshot shows the WHMCS Client Area interface. At the top, there's a navigation bar with links for Home, Services, Domains, Billing, Support, Open Ticket, and a greeting 'Hello, san!'. On the far right, there are links for View Cart (0), Notifications (0), and Choose language. The main content area has a title 'Manage Product' and a breadcrumb trail: Portal Home / Client Area / My Products & Services / Product Details. On the left, a sidebar titled 'Actions' lists options: Reboot, Shutdown, Start (which is highlighted in blue), Restore, History, Block Storage, IP Management, Firewall, Backups, and Request Cancellation. In the center, a yellow callout box asks 'Are you sure you want to start this machine?' with two buttons: a green 'Yes, start my machine' and a red 'No'. At the bottom right of the main area, it says 'Powered by WHMCompleteSolution'.

g. IP Management page to list server ip address details

The screenshot shows the WHMCS client area interface. At the top, there's a navigation bar with links for Home, Services, Domains, Billing, Support, and Open Ticket. On the far right, it says "Hello, san!" with a dropdown arrow. In the top right corner, there are links for "View Cart (0)", "Notifications (0)", and "Choose language". The main content area has a title "Manage Product" and a subtitle "Product Details". Below this, there's a table with columns: IP, Netmask, Gateway, and Broadcast. The data shown is: IP 67.225.160.228, Netmask 255.255.255.0, Gateway 67.225.160.1, and Broadcast 67.225.160.255. To the left of the table is a sidebar with sections like Actions, IP Management (which is currently selected), Firewall, Backups, and Request Cancellation. The IP Management section contains links for Reboot, Shutdown, Start, Restore, History, Block Storage, and Firewall.

h. Firewall settings – Customer can Enable / Disable firewall from their client area.

The screenshot shows the WHMCS client area interface. At the top, there's a navigation bar with links for Home, Services, Domains, Billing, Support, and Open Ticket. On the far right, it says "Hello, san!" with a dropdown arrow. In the top right corner, there are links for "View Cart (0)", "Notifications (0)", and "Choose language". The main content area has a title "Manage Product" and a subtitle "Firewall Settings". It displays three radio button options: "Disable Firewall" (selected), "Enable Basic Firewall", and "Enable Advanced Firewall". Below these options is a "Save" button. The sidebar on the left is identical to the one in the previous screenshot, with sections for Actions, IP Management (selected), Firewall (selected), Backups, and Request Cancellation. The Firewall section contains links for Reboot, Shutdown, Start, Restore, History, Block Storage, and IP Management.

- i. Enable Firewall with basic configuration

The screenshot shows the WHMCS client area interface. At the top, there's a navigation bar with links for Home, Services, Domains, Billing, Support, Open Ticket, and a user greeting "Hello, san! ▾". On the far right of the top bar are links for "View Cart (0)", "Notifications (0)", and "Choose language ▾". Below the top bar is a secondary navigation menu titled "Manage Product" with a back arrow. This menu includes links for Portal Home, Client Area, My Products & Services, and Product Details. The main content area is titled "Firewall Settings". It features three radio button options: "Disable Firewall" (unchecked), "Enable Basic Firewall" (checked), and "Enable Advanced Firewall" (unchecked). Under "Basic Configuration", there are two columns of checkboxes. The left column contains: dns (unchecked), https (unchecked), mysql (checked), pop3/ssl (unchecked), and ssh (unchecked). The right column contains: ftp (checked), imap (unchecked), ping (unchecked), smtp (unchecked), http (unchecked), imap/ssl (unchecked), pop3 (checked), and smtp/ssl (unchecked). A "Save" button is located at the bottom left of the configuration section. The bottom right corner of the page is powered by the WHMCompleteSolution logo.

- j. Enable Firewall with advanced configuration

Complete Order ➔

This order form is provided in a secure environment and to help protect against fraud your current IP address (192.168.3.14) is being logged.

5. You need to accept the order (2) manually to provision the VPS. Before accepting the order make sure that "Run Module Create" option (1) is checked.

The screenshot shows the WHMCS interface for managing orders. On the left sidebar, there's a navigation menu under 'Orders' with links for 'List All Orders', 'Pending Orders', 'Active Orders', 'Fraud Orders', 'Cancelled Orders', and 'Add New Order'. Below that is 'Advanced Search' with dropdowns for 'Clients' and 'Client Name', and a 'Search' button. At the bottom of the sidebar is a link 'Minimise Sidebar'.

The main content area is titled 'Manage Orders'. It displays detailed information about an order:

- Date:** 07/06/2016 11:20
- Order #:** 9428544931 (ID: 351)
- Client:** san s
dfadf, adfadf
sdfasdfadf, Georgia, 2423423
United States
- Promotion Code:** [empty]
- Payment Method:** Bank Transfer
- Amount:** \$970.00 USD
- Invoice #:** 294
- Status:** Pending
- IP Address:** 192.168.3.14 - Lookup | Filter | Ban
- Affiliate:** None - Manual Assign

Below this is a section titled 'Order Items' with a table:

Item	Description	Billing Cycle	Amount	Status	Payment Status
Product/Service	Liquid Web Products - LiquidWeb Private Cloud	Monthly	\$970.00 USD	Pending	Complete
Username: qqlahtnf Password: r9hk6B1S7x Server: None <input type="checkbox"/> Run Module Create <input type="checkbox"/> Send Welcome Email					
Total Due: \$970.00 USD					

At the bottom of the table are several buttons:

- Accept Order** (highlighted with a red arrow labeled '1.') - has a checked checkbox icon.
- Cancel Order
- Cancel & Refund
- Set as Fraud
- Set Back to Pending
- Delete Order

6. Once the order is accepted and VPS is provisioned successfully, the status of the order change to active (1,2) . Confirm the payment status (3) too. It will display as “Pending”, if the payment is not cleared by the customer.

extra storage	150 GB	host2.myvps22.net
- Notifications Section:**
 - Current Status:** sapp1.teststage1.com (1.)
 - Account-Wide:** The support passphrase... (3.)

8. Once the server is provisioned, customer can see his products (2) under 'Services->My Services' menu (1). Click on the products to view the product details and manage.

The screenshot shows the WHMCS Client Area interface. At the top, there's a navigation bar with links for Home, Services (which is highlighted with a red arrow labeled '1.'), Domains, Billing, Support, and Open Ticket. To the right of the navigation is a 'Hello, san!' dropdown. In the top right corner, there are links for View Cart (0), Notifications (0), and Choose language. The main content area is titled 'My Products & Services'. On the left, there's a sidebar with 'View' and 'Actions' sections. The 'View' section shows counts for Active (2), Pending (0), Suspended (0), Terminated (0), and Cancelled (0). The 'Actions' section includes links for Place a New Order and View Available Addons. The main content area displays a table of products. The table has columns for Product/Service, Pricing, Next Due Date, and Status. It shows two entries: 'LiquidWeb Private Cloud' and 'LiquidWeb VPS'. Both entries have a green 'Active' status button. A red arrow labeled '2.' points to the 'LiquidWeb Private Cloud' entry. Below the table, there's a search bar labeled 'Enter search term...', a 'Show 10 entries' dropdown, and navigation buttons for Previous, Next, and page number 1. At the bottom of the page, it says 'Powered by WHMCompleteSolution'.

Product/Service	Pricing	Next Due Date	Status
LiquidWeb Private Cloud	\$950.00 USD Monthly	07/07/2016	Active
LiquidWeb VPS	\$805.00 USD Monthly	02/07/2016	Active

9. Customer can view product details and a list of options to manage the server.

The screenshot shows the WHMCS interface for managing a product. The main title is "Manage Product" under "LiquidWeb Private Cloud". On the left, a sidebar lists actions: Start, Shutdown, Reboot, Restore, History, Block Storage (with a red arrow pointing to it), IP Management, Firewall, and Request Cancellation. The central area displays server details: Registration Date (07/06/2016), First Payment Amount (\$970.00 USD), Recurring Amount (\$950.00 USD), Billing Cycle (Monthly), Next Due Date (07/07/2016), and Payment Method (Bank Transfer). Below this is a "Request Cancellation" button. At the bottom, there's a "Manage" tab, a "Bandwidth Statistics" section with a "Daily" dropdown, and a table of server information:

Server	sapp1.teststage1.com
IP	67.227.213.18
Template	Ubuntu 14.04 LTS 64-bit Core-managed
Status	Running

10. Several options available to manage the server.

- a. Start the server

The screenshot shows the WHMCS Client Area interface. At the top, there's a navigation bar with links for Home, Services, Domains, Billing, Support, Open Ticket, and a greeting "Hello, san!". On the far right of the top bar are links for "View Cart (0)", "Notifications (0)", and "Choose language". Below the top bar, the main content area has a title "Manage Product". Underneath the title is a breadcrumb navigation: "Portal Home / Client Area / My Products & Services / Product Details". The main content area contains a confirmation dialog box with the message "Are you sure you want to start this machine?". Below the dialog are two buttons: a green "Yes, start machine" button and a red "Cancel" button. To the left of the main content area is a sidebar titled "Actions" which includes links for Start, Shutdown, Reboot, Restore, History, Block Storage, IP Management, Firewall, Backups, and Request Cancellation. The "Start" link is highlighted with a teal background. The bottom right corner of the main content area features the text "Powered by WHMCompleteSolution".

g. IP Management page to list server ip address details

The screenshot shows the WHMCS client area interface. At the top, there's a navigation bar with links for Home, Services, Domains, Billing, Support, and Open Ticket. On the far right, it says "Hello, san!" with a dropdown arrow. In the top right corner, there are links for "View Cart (0)", "Notifications (0)", and "Choose language". The main title "Manage Product" is centered above a breadcrumb navigation bar that includes "Portal Home / Client Area / My Products & Services / Product Details". To the left, a sidebar menu lists various actions: Overview (selected), Information, Actions (with Start, Shutdown, Reboot, Restore, History, Block Storage, Firewall, Backups, Request Cancellation), IP Management (selected), and IP Management (under IP Management). The main content area displays a table titled "IP Management" with columns for IP, Netmask, Gateway, and Broadcast. The table contains one row with the values: IP - 67.227.213.18, Netmask - 255.255.255.0, Gateway - 67.227.213.1, and Broadcast - 67.227.213.255. Above the table, a yellow banner message reads "IP's limit reached."

IP	Netmask	Gateway	Broadcast
67.227.213.18	255.255.255.0	67.227.213.1	67.227.213.255

- h. Firewall settings – Customer can Enable / Disable firewall from their client area.

The screenshot shows the WHMCS Client Area interface. At the top, there's a navigation bar with links for Home, Services, Domains, Billing, Support, Open Ticket, and a greeting "Hello, san!". On the far right of the top bar are links for "View Cart (0)", "Notifications (0)", and "Choose language". Below the top bar is a secondary navigation menu titled "Manage Product" with a breadcrumb trail: Portal Home / Client Area / My Products & Services / Product Details. The main content area has a sidebar on the left containing sections like Overview, Information, Actions (with options Start, Shutdown, Reboot, Restore, History, Block Storage, IP Management, Firewall, Backups, and Request Cancellation), and a "Save" button. The main content area displays "Firewall Settings" with three radio buttons: "Disable Firewall" (selected), "Enable Basic Firewall", and "Enable Advanced Firewall". A "Powered by WHMCompleteSolution" watermark is visible at the bottom of the main content area.

- k. Backup page lists all the previous backups with Restore option.

The screenshot shows the WHMCS Client Area interface. At the top, there is a navigation bar with links for Home, Services, Domains, Billing, Support, Open Ticket, and a greeting "Hello, san!". On the far right of the top bar are links for "View Cart (0)", "Notifications (0)", and "Choose language".

The main content area has a title "Manage Product" and a breadcrumb navigation path: Portal Home / Client Area / My Products & Services / Product Details.

On the left, there is a sidebar with a "Actions" section containing links for Start, Shutdown, Reboot, Restore, History, Block Storage, IP Management, Firewall, and a "Backups" section which is highlighted with a dark blue background. Below the "Backups" section is a link for Request Cancellation.

The main content area features a table titled "Backup" with two columns: "Backup" and "Size". A message "You have no backups" is displayed in the center of the table.

At the bottom right of the main content area, the text "Powered by WHMCompleteSolution" is visible.

- I. Cancellation request is WHMCS default feature which will send request to admin to cancel the subscription.

The screenshot shows the WHMCS client area interface. At the top, there's a navigation bar with links for Home, Services, Domains, Billing, Support, and Open Ticket. On the far right, it says "Hello, san!" with a dropdown arrow. In the top right corner, there are links for "View Cart (0)", "Notifications (0)", and "Choose language".

The main content area has a sidebar on the left with sections for "Overview" (selected) and "Actions" (Start, Shutdown, Reboot, Restore, History, Block Storage, IP Management, Firewall). Below the sidebar, a button labeled "Request Cancellation" is highlighted with a dark blue background.

The main content area has a title "Account Cancellation Request" and a breadcrumb trail: Portal Home / Client Area / My Products & Services / Product Details / Account Cancellation Request.

A message box at the top right says "Requesting Cancellation for: Liquid Web Products - LiquidWeb Private Cloud". Below it, a large text input field is labeled "Briefly Describe your reason for Cancellation".

Below the input field, a "Cancellation Type" dropdown is set to "Immediate". At the bottom right of the form, there are two buttons: a red "Request Cancellation" button and a white "Cancel" button.

At the very bottom of the page, it says "Powered by WHMCompleteSolution".

11. From admin area, reseller can cancel the subscription. Upon cancellation, it will delete the server from Liquidweb account.

The screenshot shows the WHMCS 'Manage Orders' page. On the left sidebar, under 'Orders', there are links for 'List All Orders', 'Pending Orders', 'Active Orders', 'Fraud Orders', 'Cancelled Orders', and 'Add New Order'. Below that is 'Advanced Search' with dropdowns for 'Clients' and 'Client Name', and a 'Search' button. At the bottom of the sidebar is 'Staff Online' with 'admin' listed. A red arrow points from the number '1.' to the 'Cancel Order' button in the order details section.
